

For the Trustees

for 11.8.93

Amalgamation of the Langford coal charities

1. In response to the application for the amalgamation of the United Charities and the Robert Day Charity and the expansion of their objects the Charity Commission has drafted a new scheme to this end.
2. In so far as it is concerned with membership and procedure it is almost exactly in line with the 1915 scheme under which the trustees are now operating, but the objects are greatly expanded to include not only payments to help with lighting and heating but almost any kind of assistance for people in need, as outlined in the Charity Commission's note of which a copy is attached.
3. It is recommended that the Trustees accept the draft scheme and authorise the Clerk to return it signed on their behalf with a view to its being brought into effect as soon as possible.
