Dear Sirs,

Water supply for allotments at Langford

I enclose copies of a letter and application form which I sent you on 22nd June. Sometime in July - on the 6th if my memory serves me rightly - I had a helpful site meeting with one of your representatives, who said that an estimate of cost would follow, but I have no record of any further communication from you. My trustees will be meeting next on 6th October and I would like to have something to report.

Yours faithfully

Stephen Kemp

Dear Sirs,

Water supply for allotments at Langford

In response to a telephone inquiry I was sent the enclosed application form which I have filled up as best I can to set the ball rolling, though it is not wholly applicable to the particular circumstances.

What I am trying to find out is how much it would cost to bring water from the nearest main supplying the Elms housing estate or the school at Langford to a single standpipe on the nearby allotment gardens owned by the Langford United Charities. This would enhance the value of the allotments and increase the revenue of the charity, the purpose of which is to help the less well-off parishioners with their energy bills.

Yours faithfully

Stephen Kemp
Clerk

APPLICATION FOR NEW WATER SUPPLY

Please read the attached guidance notes before completing this form

Upon receipt of this completed application Thames Water Utilities will provide a quotation(s) for all necessary mains and/or services. The quotation for service connections will include any infrastructure charges due. Connection charges and building water if applicable, must be paid for in full before work can be carried out. For developments of more than 20 connections, the initial and each subsequent application should where possible be for a minimum of 5 connections.

Should a water main be required, further information will be requested prior to the mains quotation.

All pipes and fittings must be in accordance with the company's bye-laws. All supplies of new or connected premises will be metered (except for supplies by agreement).

Note Separate application forms are required for all developments to which section 13 applies.
